**SEC-Required Report on Routing of Customer Orders
For Quarter Ending December 31, 2011**

Symphonic Securities has prepared this report pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The report provides information on the routing of "non-directed orders" - any order that the customer has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, Symphonic Securities has selected the execution venue on behalf of its customers.

The report is divided into two sections: one for securities listed on the New York Stock Exchange and one for securities listed on the American Stock Exchange or regional exchanges. For each section, this report identifies the venues most often selected by Symphonic Securities, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects, if any, of Symphonic Securities' relationship with the venues.

Securities Listed on the New York Stock Exchange

Summary Statistics:

Non-directed orders as a percentage of total customer orders	100%
